

# Paul Negulescu, Ph.D.

Senior Vice President and Site Head, San Diego Research

Paul Negulescu is the Senior Vice President and Site Head of San Diego Research. He's been leading Vertex's San Diego research location since 2003, the site that discovered Vertex's two medicines that treat the underlying cause of cystic fibrosis.

Prior to joining Vertex, Dr. Negulescu was Senior Vice President of Discovery Biology and a member of the executive team at Aurora Biosciences. When Vertex acquired Aurora, he was responsible for integrating Aurora's research into Vertex.

Dr. Negulescu received both his B.S. and Ph.D. from U.C. Berkeley in Physiology and carried out post-doctoral work at U.C. Berkeley and U.C. Irvine in the areas of ion channel biophysics and immunology.
